

Good Good Time

Dave Matthews Band

Don't it sometimes feel
As if the world is turned upside down.
We're all standing on our heads.
Tryin' to make the most of this,
Kinda makes it feel like your heavy.

Don't it sometimes feel like you got too much to bear.
Well let it at the door my friend,
Come inside and let's have a good good
Good good time tonight
Try forget it all
'Cause it will still be there tomorrow,
You can be sure, it will still be there for us all.

Let's have a good good time tonight
That's what I preach, yeah.
You can leave the problems out
We come back to teach about
The fun I like good good time
Nobody be there by my side
Close your eyes, shake it up, shake it up.
Baby ya look good tonight
It's a good good time tonight, yeah

Stumble self down, fall down,
Scrape your knee, rub it good.
You wake up with your head feels like,
Someone's beatin' on you.
End of story
But overboard, overboard
Just for this evening
Leave it behind, leave it behind,
Let's dance the night away.

Let's have a good good time tonight
Hope ya can if ya will.
Try to leave your tears after all
Bring 'em in to show everyone
We can get to the bottom of this bottle
We could end of this burning toll
Roll up now, roll it up another one,
And another fall through before.
Let's have a good good time tonight

It's a good good time tonight
It's a good good time tonight
It's a good good time tonight
It's a good good time tonight
