

# One Sweet World

Dave Matthews Band

Nine planets round the sun  
Only one does the sun embrace  
Upon this watered one  
So much to we take for granted

So let us sleep outside tonight  
Lay down in the mother's arms  
For here we can rest safely

If green should slip to grey  
Would our hearts still bloody beat  
If the mountains crumble away  
And the river dry  
Would it stop the stepping feet

Take all that we can get  
When it's done  
Nobody left to bury  
Nobody left to dig the holes  
And here we will rest safely

One sweet world  
Around this star is spinning  
One sweet world  
In her breath I'm swimming  
And here we will rest in peace.
