

# She

Dave Matthews Band

She hypnotised me with her groove  
She collects the stars and simple moon  
She might say she don't but then she do  
She before I wake up with nothing I know

There ain't no God or man could kill the burning fire  
She is born in the middle of my soul  
If you wait too long to taste the jewel  
Jewel is gone, the lights are off  
But you have run out of time

She will fill my bones and veins  
She's the poison that will save you  
She collects the laughter and the tears  
She burns down the barns and sets your fears free

There ain't no God or man could kill the burning fire  
She is born in the middle of my soul  
If you wait too long to taste the jewel  
Jewel is gone, the lights are off  
But you have run out of time

She makes me feel like I'm falling under  
She aspell like karma break, no wonder  
She will leave the metal in the wound  
She still hypnotised me with her groove  
She knows

There ain't no God or man could kill the burning fire  
She is born in the middle of my soul  
If you wait too long to taste the jewel  
Jewel is gone, the lights are off  
But you have run out of time
