

Sister

Dave Matthews Band

1. Passing time with you in mind
It's another quiet night
Feel the ground against my back
Counting stars against the black

2. Think about another day
Wishing I was far away
Wherever I dreamed I was
You were there with me

R: Sister, I hear you laugh
My heart fills full up
Keep me please
Sister, when you cry
I feel your tears
Running down my face
Sister, sister, keep me

3. I hope you always know it's true
I would never make it through
You could make the sun go DARK
Just by walking away

4. Playing like we used to play
Like it would never go away
I feel you beating in my chest
I'd be dead without

R: Sister, I hear you laugh...

5. I hope you always know it's true
I would never make it through
You could make the heavens fall
Just by walking away

R: Sister, I hear you laugh...
