## Sister

## **Dave Matthews Band**

- Passing time with you in mind It's another quiet night Feel the ground against my back Counting stars against the black
- 2. Think about another day Wishing I was far away Wherever I dreamed I was You were there with me
- R: Sister, I hear you laugh
  My heart fills full up
  Keep me please
  Sister, when you cry
  I feel your tears
  Running down my face
  Sister, sister, keep me
- 3. I hope you always know it's true I would never make it through You could make the sun go DARK Just by walking away
- 4. Playing like we used to play Like it would never go away I feel you beating in my chest I'd be dead without
- R: Sister, I hear you laugh...
- 5. I hope you always know it's true I would never make it through You could make the heavens fall Just by walking away
- R: Sister, I hear you laugh...
