

Write A Song

Dave Matthews Band

1. You know the kind of song that'll get you high
When the moon's so big it looks close enough to touch the sky
When the sun don't reign and the moon won't shine (don't reign and the moon)
I got a little thing that'll get you by, just a little while

R: When you turn it on it's gonna blow your mind
Head over heels you go,
look at you, look at you, fly

Dance and sing, swing baby, swing
You're my queen swing like a demolition ball
Break them walls down go floatin' across the floor
And when you get to the end you want to start at the beginning again

2. I want to write a song that'll get you high
I want to find the words that'll make everything feel alright now
So in another world and another time (don't reign and the moon)
I'll be the kind of man that'll do you right right by you

R: When you turn it on it's gonna...

Dance and sing, swing baby, swing...

*: It's gonna blow my mind
Head over heels for you,
look at you, look at you, fly

R: Dance and sing, swing baby, swing...
