

# God Head Killers

Davey Suicide

Ride the lost high way, route 66 going 95  
Demons in my rear view, temptations waving all the time

Come on give it to me, come one give it to me  
Come on give it to me, running through my veins  
Come on give it to me, come one give it to me  
Come one give it to me, yeah!

Fear is a God, Fear is a God  
Fear is a God, it's a headline thriller  
Fear is a God, Fear is a God  
Fear is a God, and we're God Head Killers

Mirror, mirror on the wall  
Pistol whip the anchor that pollutes us all  
Tear the stripes and burn your stars  
Truth is a fallacy amongst us all

Come on give it to me, come one give it to me  
Come on give it to me, running through my veins  
Come on give it to me, come one give it to me  
Come one give it to me, yeah!

Fear is a God, Fear is a God  
Fear is a God, it's a headline thriller  
Fear is a God, Fear is a God  
Fear is a God, and we're God Head Killers

We've gathered together, united by fear  
Maintaining a pulse, while the hands around our neck  
Try to strangle every last breath of integrity out of us  
We are the future  
You have the right to remain silent  
I have the right to say whatever the fuck I want!

Fear is a God, Fear is a God  
Fear is a God, it's a headline thriller  
Fear is a God, Fear is a God  
Fear is a God, and we're God Head Killers  
Yeah!

Fear is a God, Fear is a God  
Fear is a God, it's a headline thriller  
Fear is a God, Fear is a God  
Fear is a God, and we're God Head Killers

Fear is a God, Fear is a God  
Fear is a God, it's a headline thriller  
Fear is a God, Fear is a God  
Fear is a God, and we're God Head Killers
