

# Only Human

Davey Suicide

Is this the end or the beginning  
Of something beautiful?  
I'm on the ledge, the same one  
That I've talked so many down from before

I remember the look in your eyes  
When you tell me I'm the only reason you're alive  
I'm not made of steel

I read over the words that you'd say  
Every message strikes a chord deep inside of me  
I'm not made of steel  
I'm only human

Is this the way you must feel  
When the candle burns  
At either end  
I start slipping  
who's gonna catch me now

I remember the look in your eyes  
When you tell me I'm the only reason you're alive  
I'm not made of steel

I read over the words that you'd say  
Every message strikes a chord deep inside of me  
I'm not made of steel  
I'm only human

We found a way to take the pain away  
We found a way to take the pain away  
We found a way to take the pain away  
I found a way to take the pain away

Lost, no more  
Found a way  
Lost, no more  
Found a way

I am to you as you are to me

I remember the look in your eyes  
When you tell me I'm the only reason you're alive  
I'm not made of steel

I read over the words that you'd say  
Every message strikes a chord deep inside of me  
I'm not made of steel  
I'm only human
