

Only Human

Davey Suicide

Is this the end or the beginning
Of something beautiful?
I'm on the ledge, the same one
That I've talked so many down from before

I remember the look in your eyes
When you tell me I'm the only reason you're alive
I'm not made of steel

I read over the words that you'd say
Every message strikes a chord deep inside of me
I'm not made of steel
I'm only human

Is this the way you must feel
When the candle burns
At either end
I start slipping
who's gonna catch me now

I remember the look in your eyes
When you tell me I'm the only reason you're alive
I'm not made of steel

I read over the words that you'd say
Every message strikes a chord deep inside of me
I'm not made of steel
I'm only human

We found a way to take the pain away
We found a way to take the pain away
We found a way to take the pain away
I found a way to take the pain away

Lost, no more
Found a way
Lost, no more
Found a way

I am to you as you are to me

I remember the look in your eyes
When you tell me I'm the only reason you're alive
I'm not made of steel

I read over the words that you'd say
Every message strikes a chord deep inside of me
I'm not made of steel
I'm only human
