

Back To Atlanta

David Allan Coe

If she knew that I was here with you
There ain't no doubt about what she would do
So lets get dressed and I'll be on my way
You knew that I was passing through
I never meant to stay.

And I think id better go back to atlanta
Before my conscience makes a fool of me
I never should have stepped across loves mason dixon line
And I think its time to go back to atlanta

I've been on the road for a long long time
She was out of sight and out of mind
But she still wears my ring upon her hand
All that I could be to you is
Just a one night stand
