

Honey Don't

David Allan Coe

I've done some rambling down in Mississippi
I've done some time in Tennessee
I server my sentence in a fender twin amplifier
Honey don't you lat that shit on me

Honey don't you lay that shit on me
I paid my dues to the musicians union
Honey don't you lay that shit on slim

I've been a Rodie for satan honey
I was a sound man for the devil you see
Now I'm a guitar with the heart of a banjo
Honey don't you lay that shit on me
