

If You'll Hold The Ladder

David Allan Coe

Baby your the only dream I've ever had come true
There's so much more to reach for thanks to you
Now I can climb this mountain, babe, there was a time id stop
If you'll just hold the ladder baby I'll climb to the top

If you'll just stand beside me all the way
I'll do all the things that didn't matter yesterday, hey
And I'll be everything this man can be before I stop
If you'll just hold the ladder baby I'll climb to the top

Things just started changing with your touch
