

In My Mind

David Allan Coe

When you saw her, did she ask about me?
What did you see in her eyes?
Was she happy?
Was she wearing a smile?
Did she really seem surprised?

I've still got her picture
I carry it all of the time
It's not in my wallet
I keep it right here in my mind

When you saw her and you mentioned my name
Did she place the blame all on me?
Did she tell you that I drove her away?
What did she say about me?

I've still got her picture
I carry it all of the time
It's not in my wallet
I keep it right here in my mind, mm

She is much older than this picture I see
I haven't seen her in years
Is she still the same old girl she used to be?
Does she know how much I care?

I've still got her picture
I carry it all of the time
It's not in my wallet
I keep it right here in my mind

Here's a song for the road that she's following now
Here's a song...
