

Loves Cheatin' Line

David Allan Coe

Yep, she finally crossed over love's cheatin' line
If she mean to hurt me, she's done it this time
My best friend has loved her right out of my mind
She's finally crossed over love's cheatin' line

Yep, she finally crossed over lovers cheatin' line
It's hard to imagine that I've been so blind
Well, nobody could have told me that she was that kind
She finally crossed over lover's cheating line

Now listen to me, girl, it's true that I left her left her alone
And some folks will tell you I done her wrong
And I see the pity from all of my friends
It's hard to believe, Lord, the way true love ends

She finally crossed over love's cheatin' line
Guess I should have noticed those old danger signs
This bottles gonna help me to get her off my mind
She finally crossed over love's cheatin' line
