

# She's Already Gone

David Allan Coe

Fast cars and whiskey are just like a woman  
There good for the taking but hard to let go  
And gambling's as easy as working the pipeline  
Or bustin some bronks in a cheap rodeo

If the proofs in the pudding  
The cakes in the oven  
You might as well pack up your things and move on  
It's a fact when a woman starts talking about leaving  
And she's standing beside you then she's already gone  
Gone like the robins south for the winter  
Gone like the river out to the sea  
Gone like the leaves from the trees in the fall  
I'll tell you she's already gone  
She's talking about leaving she's already gone

Those high dice and pool cues are just like a lady  
They love you and leave you a little bit down  
Counting your loosing's they'll leave with your winnings  
While your living on dreams that they already dreamt

If the proofs in the pudding  
The cakes in the oven  
You might as well pack up your things and move on  
It's a fact when a woman starts talking about leaving  
And she's standing beside you then she's already gone  
Gone like the robins south for the winter  
Gone like the river out to the sea  
Gone like the leaves from the trees in the fall  
I'll tell you she's already gone  
She's talking about leaving she's already gone
