

## Then I Found You

David Allan Coe

It's not hard to tell an orchid from a rose  
Roses have thorns everybody knows  
And the orchid is the sweetest flower that grows  
No it's not hard to tell an orchid from a rose

Some men search for roses heaven knows  
There's one thing that's prettier than any rose  
They'll walk past an orchid every time  
And roses are the only thing they'll find

Then I found you  
You were the one in a million I've been looking for  
Then I found you  
You were the orchid I'd been trying so hard to find  
Then I found you and I left that old bed of roses behind

It's not hard to tell an orchid from a rose  
Roses have thorns everybody knows  
And the orchid is the sweetest flower that grows  
No it's not hard to tell an orchid from a rose  
Then I found you  
You were the one in a million I've been looking for  
Then I found you  
You were the orchid I'd been trying so hard to find  
Then I found you and I left that old bed of roses behind
