

When She's Got Me (Where She Wants Me)

David Allan Coe

Last night she made it plain she didn't want me today I woke later and alone
Tomorrow I'll be turnin' to the bottle tonight I'll be cold and all alone
She only broke my heart Lord not my spirit she only took my body not my soul
My skin still burns in places where she touched me
And when she touched me Lord I lost my self-control
When she's got me where she wants me she don't want me
I'm just another game she likes to play
I don't think I can make it through tomorrow
I almost never made it through today
She sure knew how to love me when she loved me
When I was weak she always came on strong
She knew just what it took to drive me crazy
And she knew how much I hate to be alone
When she's got me where she wants me
