

Whiskey, Whiskey (Take My Mind)

David Allan Coe

Whiskey, whiskey take my mind
Let me leave it all behind
Take me somewhere I can find
Someone to believe

Whiskey, whiskey be my friend
Don't you let me fall again
You can help me to pretend
She won't ever leave

Whiskey, whiskey tell me lies
You know she can hypnotize
If I look into her eyes
I'll be lost again

Whiskey, whiskey keep your cool
Don't you let me be no fool
I'll be sitting on this stool
'Til the very end
