Forevermore

David Archuleta

There are times when I just want to look at your face With the stars in the night There are times when I just want to feel your embrace In the cold night I just can't believe that you are mine now

You were just a dream that I once knew I never thought I would be right for you I just can't compare you with anything in this world You're all I need to be with forevermore

All those years, I long to hold you in my arms I've been dreaming of you Every night, I've been watching all the stars that fall down Wishing you will be mine I just can't believe that you are mine now

You were just a dream that I once knew I never thought I would be right for you I just can't compare you with anything in this world You're all I need to be with forevermore

Time and again There are these changes that we cannot end As sure as the time keeps going on and on My love for you will be forevermore Ohhh, yeah---ey I just can't believe that you are mine now

You were just a dream that I once knew I never thought I would be right for you I just can't compare you with anything in this world

As endless as forever Our love will stay together You are all I need to be with forevermore Forevermore You are all I need to be with forevermore Hmmm---yeahh---yeah
