

# Invincible

David Archuleta

I started a war  
I sent out a battle cry  
And I've been here before  
Fighting me, myself, and I  
When I try to prove that I'm never gonna lose  
I pushed you hard  
I pushed too far  
Try to be brave till it's more than I can take  
So many times till I realized

Take a breath  
Look at how you're tryna to think it to death  
If you're in the crossfire, don't forget  
That you don't have to be invincible  
Take a step  
Even if you fall, it ain't over yet  
If you're in the crossfire, don't forget  
That you don't have to be invincible

(That you don't have to be invincible)  
(That you don't have to be invincible)

I counted to ten  
I stepped back so I could see  
How bad it can get  
When I'm the enemy  
I put my weapons down  
Until I found a better way  
A better way  
I'll never change if I'm too afraid to break  
Got to let it go  
Let the whole world know to

Take a breath  
Look at how you're tryna to think it to death  
If you're in the crossfire, don't forget  
That you don't have to be invincible  
Take a step  
Even when you fall, it ain't over yet  
If you're in the crossfire, don't forget  
That you don't have to be invincible

(That you don't have to be invincible)  
(That you don't have to be invincible)

You'll never know  
You'll never know how strong you are  
Till' you're strong enough to let your armor fall  
Yeah, yeah, yeah, yeah

Take a breath  
Look at how you're trying to think it to death  
If you're in the crossfire, don't forget  
That you don't have to be invincible  
Take a step  
Even if you fall, it ain't over yet  
If you're in the crossfire, don't forget

That you don't have to be invincible  
Take a breath  
Look at how you're trying to think it to death  
If you're in the crossfire, don't forget  
That you don't have to be invincible  
Take a step  
Even when you fall, it ain't over yet  
If you're in the crossfire don't forget  
That you don't have to be invincible

Take a breath  
Look at how you're trying to think it to death  
If you're in the cross fire don't forget  
That you don't have to be invincible  
Take a step  
Even when you fall it ain't over yet  
If you're in the crossfire don't forget  
That you don't have to be invincible
