

Postcards in the Sky

David Archuleta

Your heart is like a map of scars
But it still carries the love
The pen and paper's in your hands
Catching all that you think of

Throw your words into the world
What you feel, and you'll be heard

Postcards in the sky
Saying what's inside
Hoping it will fly away
And find a way to you
Postcards in the sky
Hoping it will fly away
And find a way to
Love, dreams, hope, peace
Life, that's all we had
That's all we had
Love, dreams, hope, peace
Life, that's all we had
That's all we had

Fear is only love turned cold
Just a thought can change it back
One move is all it really takes
Then you'll see how life reacts

Throw your words into the world
What you feel, and you'll be heard

Postcards in the sky
Saying what's inside
Hoping it will fly away
And find a way to you
Postcards in the sky
Hoping it will fly away
And find a way
Love, dreams, hope, peace
Life, that's all we had
It's all we had, woah
Love, dreams, hope, peace
Life, that's all we had
That's all we had

All the hurt you're hiding
For everyone you're missing
Gotta throw it in the sky
All the stars you're chasing
The stories that you're making
Gotta throw it in the sky

Postcards in the sky
Saying what's inside
Hoping it will fly away
And find a way to you
Postcards in the sky
Hoping it will fly away

And find a way to

Postcards in the sky
Saying what's inside
Hoping it will fly away
And find a way to you
