

Spotlight Down

David Archuleta

I don't wanna walk away
But I can't stay how you say I should be
I won't break
But I can't bend enough
To where you are
Cause I am stronger now
So turn the spotlight down

I can't live a life on display
Watching every move that I make
This world's not a stage
It's been remade
Scenes were moving too fast
Waiting for the curtains to crash
I'm standing now
Spotlight down

I was running hard and fast
On someone else's highway
But that can't last
I was counting the days
To singing solo songs that know my heart
This is where I start

I can't live a life on display
Watching every move that I make
This world's not a stage
It's been remade
Scenes were moving too fast
Waiting for the curtains to crash
I'm standing now
Spotlight down

I'm on the mark
Get ready set
I don't have all the answers yet
Hold on the rock
I won't forget
I'm here, I'm here

I can't live a life on display
Watching every move that I make
This world's not a stage
It's been remade
I can't live a life on display
Watching every move that I make
This world's not a stage
It's been remade
Scenes were moving too fast
Waiting for the curtains to crash
I'm standing now
