

# Waiting in the Stars

David Archuleta

Sixty thousand thoughts a day  
Fighting you to lead the way  
The fear and love inside of you  
Which one are you listening to?

I know it gets hard sometimes  
To live with a heart of light

Don't let, don't let it fool ya  
This life's got more for you, yeah  
Your story's waiting in the stars  
Don't let, don't let it fool ya  
This life's got more for you, yeah  
Your story's waiting in the stars

Dodging all the sticks and stones  
Scared a word might break a bone  
But if you stand and hold your own  
You will see you're not alone

I know it gets hard sometimes  
To live with a heart of light

Don't let, don't let it fool ya  
This life's got more for you, yeah  
Your story's waiting in the stars  
(Your story's waiting in the stars)  
Don't let, don't let it fool ya  
This life's got more for you, yeah  
Your story's waiting in the stars  
(Your story's waiting in the stars)

This could be the golden day  
One step from your life changing  
This could be the end of the way  
One step from your life changing

I know it gets hard sometimes

Don't let, don't let it fool ya  
This life's got more for you, yeah  
Your story's waiting in the stars  
Don't let, don't let it fool ya  
This life's got more for you, yeah  
Your story's waiting in the stars  
(Your story's waiting in the stars)

Waiting in the stars  
Waiting in the stars
