What Do You Want With His Love

David Ball

Don't tell me it's all over
Don't break my heart in two
Happiness is mine when I'm with you
Is it true you've found another
Are you leaving me behind
What do you want with his love
You've already got mine

So what do you want with somebody new You've already got a love that's true You're gonna look back and long for the day You'll want the love you threw away

You will remember this heart you've broken If you leave me far behind What do you want with his love You've already got mine

What do you want with somebody new You've already got a love that's true You're gonna hurt me much more than you know If you really mean to let me go

You will remember this heart you've broken If you leave me far behind What do you want with his love You've already got mine

What do you want with his love You've already got mine
