

# When The Devil Wants To Wrestle

David Ball

If there's someone out there their heart is filled with doubt  
If they standing in the shadow and the candles blows out  
And the devil is there with you, he's got you in his hold  
You think you're no match for him but don't surrender your soul

When the devil wants to wrestle put Jesus in the ring  
When you're down for the count just call out His name  
If he's got you in his grip, oh, remember this one thing  
When the devil wants to wrestle put Jesus in the ring

There I was, all alone fearing for my life  
There was darkness all around me on that lonely night  
When the devil made a move, he got a hold of me  
Then I called out for help and the Lord set me free

When the devil wants to wrestle put Jesus in the ring  
When you're down for the count just call out His name  
If he's got you in his grip, oh, remember this one thing  
When the devil wants to wrestle put Jesus in the ring  
When the devil wants to wrestle put Jesus in the ring
