

# I Took a Trip on a Gemini Spaceship

David Bowie

Took a trip on a Gemini spacecraft  
And I thought about you  
I passed through the shadow of Jupiter  
And I thought about you

I shot my space gun  
And boy I really felt blue

Two or three flying saucers  
Parked under the stars, winding stream  
Moon shining down on some little town  
And with each beam the same old dream

I took a trip on a Gemini spacecraft  
And I thought about you  
Well I shot my spacegun  
And I thought about you

Pulled down my sun visor  
Boy, I really felt blue

You jumped into your Gemini, I jumped into mine  
We'll orbit the Moon for just one time  
Tomorrow night, tomorrow night  
Will you hold hands with me under the moonlight?

Took a trip in a Gemini spacecraft  
And I thought about you  
I shot my space gun  
And I thought about you

And I took a, I took a walk in space  
Boy, I really felt blue

Well I peeked through the crack and looked way back  
Stardust trail leading back to you  
What did I do? What could I do? What did I do?  
Well

I thought about you  
I thought about you  
Took a trip on a Gemini spacecraft  
And thought about you
