

Lady Stardust

David Bowie

1. People stared at the makeup on his face
Laughed at his long black hair, his animal grace
The boy in the bright blue jeans
Jumped up on the stage
And lady stardust sang his songs
Of darkness and disgrace

R: And he was alright, the band was altogether
Yes he was alright, the songs went on forever
 Emi Emi (#7)
And he was awful nice
Really quite out of sight
And he sang all night long
2. The femme fatales emerged from shadows
To watch this creature fair
Boys stood upon their chairs to make thier point of view
I smiled sadly for a love I could not obey
And Lady Stardust sang his songs
Of darkness and dismay

R: And he was alright...
- Ooh, how I sighed when they asked if I knew his name
3. Oh they were alright, the band was altogether
Yes he was alright, and the song went on forever
He was up all night
Really quite out of sight
He sang all night long
