Broken Things

David Byrne

There are broken things In my house

There are broken things In my house

Some are twisted Some are cracked Some been bended Till they snapped

There are broken
Things in here
There are broken
Things in here
Things in pieces
Things in knots
Things that crumble
In tiny parts

I am fixing broken things
I am fixing broken things
Everyone could use some help
Will you help me fix myself?

I am fixing broken things I am fixing broken things Things are mended Things are glued I have done Best I can do

I am fixing broken things I am fixing broken things Everyone could use some help Will you help me fix myself?

See how easy - things can break?
If it's crooked,
Make it straight
Do you love me?
I can't tell
Pick up pieces
And make me well

In this house of broken things In this house of broken things Everyone could use some help Will you help me fix myself?

I am fixing broken things
I am fixing broken things
Everybody celebrate
Now I got my business straight
