

# Good And Evil

David Byrne

Caught you walkin' like a gangster  
Saw you grabbin' the controls  
Now you're almost outta batteries  
You gottta sweater much too small

Pokin' at your navel  
Pointin' your finger too  
You say your lips don't even stick together  
When the dust comes up  
Blowin' 'cross the plains  
Pictures fallin' in and outta their frames!

Good and evil, good and evil  
They turned 'em loose, they turned into people  
Good and evil, good and evil  
They turned 'em loose, they turned into people  
You know that roses and lilacs are funky too ?  
Let 'em go at it, let's see what they do  
Now we're wrestlin' with the forces of good and evil  
They turned 'em loose, they turned into people

I have seen you do things backward  
You don't believe a word I say  
Now you're holdin' sticky paper  
Money never fades away

Talkin' like a monster  
Smellin' like a baby  
You got a head like a bowl full of cherries  
So don't be surprised  
You got what it takes  
Messin' round like monkeys and apes

Good and evil, good and evil  
They turned 'em loose, they turned into people  
Good and evil, good and evil  
They turned 'em loose, they turned into people  
You know that roses and lilacs are funky too ?  
Let 'em go at it, let's see what they do  
Now we're wrestlin' with the forces of good and evil  
They turned 'em loose, they turned into people
