

# Neighborhood

David Byrne

Funky beats, Barrow Street  
Walking with your dog

I see you, You see me  
Then we stop and talk

Later on, some cafe  
Thinking what you said

Children laugh, telling jokes  
'Till their eyes are red

The people feel so good  
Say boy, say girl  
All in my neighborhood  
Say boy, say girl  
We got peace, love and monkey business  
Gonna reach the very top  
There'll be pride, hope and Sunday mornings  
All the things I'm thinking of  
We could change the world  
In the night while we are sleeping  
The Power's in my neighborhood

Liquor stores, stop and shop  
Old folks sit outside  
Restaurants - Laundromats  
She's still on my mind

April, May, June, July  
August comes around  
Pretty soon, a years gone by  
And we're still hanging out

The people feel so good  
Say boy, say girl  
All in my neighborhood  
Say boy, say girl  
We got peace love and monkey business  
Gonna reach the very top  
There'll be pride, hope and Sunday mornings  
All the things I'm thinking of  
We could change the world  
In the night while we are sleeping

Now the rich get richer  
And the poor stay poor  
And folks get restless  
If it don't change soon

But there's a sweet sensation  
Turnin bad to good  
And things get better  
In my neighborhood

So burn on - you little candle - put your light into my head  
There's a lone wolf - on the mountain - he's the friend you never had

We got peace, love and monkey business - gonna reach the very top  
There'll be - pride, hope & Sunday mornings - all the things I'm thinking of  
So, come on down
