

# Little By Little

David Byron

Little by little  
Bit by bit...

There's need to get you time out  
I've made up my mind  
I've found a new direction  
And I'm making out fine  
Leading in a hard day  
Just taking my time  
And the best thing I've got is I'm on the right line

Oh, I've made up mind  
To do it little by little and bit by bit

Little by little and bit by bit...

If I never said I loved you  
Did you find it absurd  
The thing you didn't understand, girl  
I'm a man of my word  
There's plenty people talking  
Searching impossible  
The thing you must remember  
They're just real as it hurts  
I've made up my mind  
Do it little by little and bit by bit...
