

# Start Believing

David Byron

There's a suggestion  
Just try to use your mind  
An answer to your question  
Don't ever look behind  
The future's out there waitin'  
For you to grab a bite  
And then start creating  
But keep the end in sight  
Start believing, believe in me  
Start believing...  
Don't ever do resistance  
Do what you think is right  
And with a little assistance  
I'll prove that black is white  
And if you don't believe it  
Take my advice  
Start believing, believe in me  
Start believing...  
The moment you're in heaven  
The more you want and choose  
Don't ever hold forever  
As long as you believe  
You'll never need to worry
