

Treat Me Like You Used To

David Cassidy

I think of nothin', nothin' but you
You think of nothin' but bad things to do
You got me jumpin' like a dog on a chain
It's a cold calculated game
I've seen myself become a fool in your eyes
Tell me why'd it take so long
For me to realize

[Chorus:]

You don't treat me like you used to
Treat me like you should
Is there someone else you've been treating good
Why don't you treat me like you used to
Like you know you could
Baby won't you try to
Treat me like you used to

Poured on the kisses and you drank them like wine
Drowned in affection it was almost a crime
But you work all day and you're playin' all night
It's a cold calculated game
You say that havin me is all that you need
But I've heard it all before
Baby talk is cheap

[Chorus]

You say that havin' me is all that you need
But I've heard it all before
Baby talk is cheap

[Chorus]
