

## Don't Fade Away

David Choi

The day has come for packing boxes  
Dusty pictures with familiar faces  
Put them down, better mow the lawn  
Before the day is gone  
One more look down the street  
Playback all my memories

Goodbye, don't change a thing  
And I promise that I'll be back someday  
You know I'll miss you,  
Please don't fade away  
Don't fade away

Oh clock, just stop, for a second  
I still see the kid inside the mirror  
I'm all grown up, moving on life feels short, it used to feel longer  
The flying birds they remind me  
That sometimes we have to go  
Oh we have to go  
Goodbye, don't change a thing  
And I promise that I'll be back someday  
You know I'll miss you,  
Please don't fade away  
Don't fade away

I gotta go, leave here by three  
Something's waiting for me  
Goodbye, don't change a thing  
And I promise that I'll be back someday  
You know I'll miss you,  
Please don't fade away  
Don't fade away
