

Forever And Ever

David Choi

She was all I could see
Didn't take too long
Quite a fairy tale love story
Oh I held her strong

Packed our things, and took the subway
No looking back all for love
Nothing else could take this dream of us

No good thing lasts forever
As the wind blows through
Wish I could wipe the tears
Away from you

Forever and ever, I'll be in your heart
Wherever you are, I am with you
Baby please don't cry, when you think of me
Remember the good things
Remember the good things

When you close your eyes
That's when I hear you
Wish I could speak tonight
Loving you was oh so easy
Only felt so right

What I'd give to be where you are
Soft asleep in my arms
All I need is one more kiss
But you're oh so far

No good thing lasts forever
As the wind blows through
Wish I could wipe the tears
Away from you

Forever and ever, I'll be in your heart
Wherever you are, I am with you
Baby please don't cry, when you think of me
Remember the good things
Remember the good things
