

# We'll Make It Last All Afternoon

David Choi

(Let's go)

Ohh...

The forecast states that we've got blue skies  
And there's no worries when you're up high  
Birds flyin' next to us and no clouds in sight to see and just  
The sunshine and bright, alright  
Oh yeah..

I'll take you on an airplane across the world  
I'll take you on an airplane across the world  
Ohh  
Just you and me, girl  
Just you and me  
We'll make it last all afternoon

People workin' hard on weekdays  
In little cars, they sit on freeways  
But we're okay here  
With heaven near  
Threw our worries away, away

I'll take you on an airplane across the world  
I'll take you on an airplane across the world  
Ohh  
Just you and me, girl  
Just you and me  
We'll make it last all afternoon  
Yeaah..

[scatting/whistling]

Oh! Hey!  
I'll take you on an airplane across the world  
I'll take you on an airplane across the world  
Ohh  
Just you and me, girl  
Just you and me  
We'll make it last all afternoon
