

# Living On Love

David Coverdale

When I need a hand to guide me  
I find you there  
And everything you give to me  
Is filled with love and care  
You take away the memory  
Of a thousand rainy days  
With promises of summer love  
You chase the clouds away  
Now if the sky should fill with rain  
I know the sun will shine again

When I think of all the heartache  
I've been through  
The many mistakes I had to make  
To lead me here to you  
All the hurt and sadness  
Don't seem to much  
As the walls I built around my heart  
Crumble when we touch  
Through my life was filled with pain  
You show me how to love again

Now I'm never gonna run  
Never gonna hide  
I'm living on love  
Never gonna run  
Never gonna hide  
I'm living on love  
Nothing's gonna stop me now  
I'm living on love with you

So as you lay beside me  
I'll sing songs of love to you  
Cos' everything I'm feeling babe  
I know you feel it to  
Nothing can come between us  
No dark clouds in the way  
All the love I feel for you  
Grows stronger every day  
After all is said and done  
I know you're the only one

Now I'm never gonna run  
Never gonna hide  
I'm living on love  
Never gonna run  
Never gonna hide  
I'm living on love  
Nothing's gonna stop me now  
Cos' I'm living on love with you
