

In My Dreams

David Crosby

Look at those dancers gliding around
Seems if their feet
Don't hardly touch the ground

Look at them smiling
Like they knew one another
And they never would come down

Turn around and hold me
I'd like to see your face alone
I'm hoping there's someone home

[Instrumental Acoustic Guitar and Electric Guitar]
I'd like to meet you
Who do you see?
Introduce yourself to whichever of me is nearby

Close behind your eyes you're laughing at me
And I'm stuck here with no instructions that I can see
To steer by

Stick around it's tricky ground
I'd like to see your face alone
I'm hoping there's someone home

[Instrumental Acoustic Guitar and Electric Guitar]

Two or three people fading in and out
Like a radio station that I'm thinking about
But I can't hear

Who gets breakfast? Who gets the lunch?
Who gets to be the boss of this bunch?
Who will steer?

Turning, turning
To see your face alone
I'm hoping there's someone home

[Instrumental Acoustic Guitar and Electric Guitar]

Dream
Do you dream
Dreaming
Do you?

Dream
Do you dream
Dreaming
Do you?

In my dreams
I can see, I can
I can see a love
That could be

In my dreams

I can see, I can
I can see a love
That could be

[Instrumental Electric Guitar]

Ba, ba, da, da ... ah, ah ...
In my dreams
I can see, I can
I can see a love
That could be

In my dreams
I can see, I can
I can see a love
That could be

In my dreams
I can see, I can
I can see a love
That could be

In my dreams
I can see, I can
I can see a love
