## Alleluia, Sing

## **David Crowder Band**

Like calm comes to a sea Like snowfall quietly You come to me

Like justice to the weak Like a flood rising You come, You come to me

And it feels like it's almost here

Alleluia majesty Alleluia risen king Alleluia angels sing

Like springtime to winter's hush Like laughter to solemnness Like a sun rising up You come, You come to us

Like a song rising up
In your heart filling up
Like a heart's not enough
For this love, for this love

To sing of love, to sing of love To sing of love, love, love
