

Come Awake

David Crowder Band

Are we left here on our own?
Can you feel when your last breath is gone?
Night is weighing heavy now
Be quiet and wait for a voice that will say

Come awake
From sleep, arise
You were dead
You've come alive
Wake up wake up
Open your eyes
Climb from your grave
Into the light
Bring us back to life

You are not the only one
Who feels like the only one
Night soon will be lifted friend
Just be quiet and wait for the voice that will say

Come awake
From sleep, arise
You were dead
You've come alive
Wake up wake up
Open your eyes
Climb from your grave
Into the light
Bring us back to life

Rise, rise, rise, rise, rise

Rise, rise, rise, rise
