Come Awake

David Crowder Band

Are we left here on our own? Can you feel when your last breath is gone? Night is weighing heavy now Be quiet and wait for a voice that will say

Come awake From sleep, arise You were dead You've come alive Wake up wake up Open your eyes Climb from your grave Into the light Bring us back to life

You are not the only one Who feels like the only one Night soon will be lifted friend Just be quiet and wait for the voice that will say

Come awake From sleep, arise You were dead You've come alive Wake up wake up Open your eyes Climb from your grave Into the light Bring us back to life

Rise, rise, rise, rise, rise

Rise, rise, rise, rise
