

Our Communion

David Crowder Band

Love, flawless unrelenting love we can know
Hope, sacred reverential hope starts to glow

In the recesses of your heart where love had flown

Sweet dreams of heaven changing our waking lives
Breath, taken in and bringing what was dead to life

In the recesses of your heart where love had died
Let it rise and lead you cross a great divide

Awake, looking for another way to get back home
Life, resurrected, swallowed death made us whole

In the recesses of your heart where love will grow
Heaven give us roots and wings and lead us home

Oh

Oh great God give us rest
No more fear from all of this
Oh great God give us rest
Let your light come down on us
Oh great God give us rest
