

# We Are Loved

David Crowder Band

Velvet black night  
Pierced with white  
Stars waiting quiet  
Wide listening sky

Stillness of air  
Life hanging there  
Out of despair  
Rises a prayer

Can we take in Your light  
So we can shine like You?  
With all this weariness  
Can we shine like You?  
With this weariness

O we are loved  
We are loved  
And it's quite enough that  
We are loved

We are loved  
We are loved  
And it's quite enough that  
We are loved

If the whole world could feel like  
If the whole world could feel like  
We could love  
We could love  
'Cause we are loved

Surrounded in white  
O purest bride  
No lovelier sight  
The church will rise

Take in Your light  
To shine like You  
Take this weariness  
O we can shine like You

Oh...  
Oh...  
Oh...  
Oh...
