

We Won't Be Quiet

David Crowder Band

You're everything we could ever want
You're everything we could ever need
You're the reason we're coming here
You're the reason we're gonna sing

You're everything we could ever want
You're everything we could ever need
You're the reason we're coming here
You're the reason we're gonna sing

We'll shout it out loud from a rooftop
We won't be quite
We've fallen for You hard and we can't stop
We won't deny it

You're everything we could ever want
You're everything we could ever need
You're the reason we're coming here
You're the reason we're gonna sing

You're everything we could ever want
You're everything we could ever need
You're the reason we're coming here
You're the reason we're gonna sing

We'll shout it out loud from a rooftop
We won't be quite
We've fallen for You hard and we can't stop
We won't deny it

We'll shout it out loud from a rooftop
We won't be quite
We've fallen for You hard and we can't stop
We won't deny it
