

## We Won't Be Quiet

David Crowder Band

You're everything we could ever want  
You're everything we could ever need  
You're the reason we're coming here  
You're the reason we're gonna sing

You're everything we could ever want  
You're everything we could ever need  
You're the reason we're coming here  
You're the reason we're gonna sing

We'll shout it out loud from a rooftop  
We won't be quite  
We've fallen for You hard and we can't stop  
We won't deny it

You're everything we could ever want  
You're everything we could ever need  
You're the reason we're coming here  
You're the reason we're gonna sing

You're everything we could ever want  
You're everything we could ever need  
You're the reason we're coming here  
You're the reason we're gonna sing

We'll shout it out loud from a rooftop  
We won't be quite  
We've fallen for You hard and we can't stop  
We won't deny it

We'll shout it out loud from a rooftop  
We won't be quite  
We've fallen for You hard and we can't stop  
We won't deny it
