

## It's What You Say

David Gates

If you wanta rock me, do it gently  
Stroke me with style, don't beat me half to death  
Just 'cause you got a big amplifier  
That don't mean you always gotta crank it higher  
It isn't how loud you play-it's what you say

It you wanta soul me don't get down too funky  
You get too low your message won't get through  
Tryin' to get the words is aggravatin'  
Especially when the singer ain't enunciatin'  
It isn't how loud you play-it's what you say

And if you wanta sing of love don't make it silly  
Tell it like you feel, but don't add nothin' else  
When the tour's over and you're home at last  
Squeeze your old lady, but make her last  
It isn't how loud you play-it's what you say
