## **Mirror**, Mirror

**David Gates** 

Little girl in the mirror Looking back...lost in wonder... Will I be pretty when I'm grown When my teddy bears and toys give way To going to school and boys Will I have one of my own ...

Will he be strong True and faithful, right or wrong and will... Will he take me where the grown-ups always go Mirror, Mirror tell me if you know

Young girl in the mirror Wedding day...lost in satin You watch you life flashing through Will it be like a storybook rhyme One last look and the preacher says it's time Time to say I do...

Will he be strong True and faithful, right or wrong and if... If I have doubts, will he say it isn't so Mirror, Mirror tell me if you know

Little girl in the mirror, Looking back...lost in wonder She feels her mummy's gentle touch I know what you're thinking girl and... I can't guarantee a perfect world But I promise you this much...

He will be strong, True and faithful, right or wrong and if... If he is like your daddy's been to me You won't need that mirror, girl you'll see.
