## **Forever Is Tomorrow Is Today**

Tuesday my heart is brimming Im a child in the wild wind Dead leaves and daylight dimming No beginning and no end Inside a candle of defiance Moonlight A river of pearls

Cause were going to need more Than money and science To see us through this world

You say it cant be done Youd rather die of fun Get out of the way For me for you for everyone Forever is tomorrow is today

Shut all the windows Shut all the doors Were keeping it all out of sight Were keeping it all Its tearing us apart You dont know your good From your bad from your black From your blood from your wrong From your right So you camouflage your heart

I dont want no other distractions Theres too much here to see Faint hearts or jaded reactions Contraptions of history

You say it cant be done Youd rather die of fun Get out of the way For me for you for everyone Forever is tomorrow is today

Shut all the windows Shut all the doors Im keeping it all out of sight Im keeping it all Its mine and mine alone Corrosion collision I need a vision To tear off the cloak of the night And shatter eyes of stone

You say it cant be done Youd rather die of fun Get out of the way For me for you for everyone Forever is tomorrow is today Forever is tomorrow is today Forever is tomorrow is today
