

# Girl Like You

David Gray

Shaking off the morning dew  
No I never met a girl like you  
Trying to see the land as it lies  
Is like driving with the sun in my eyes  
Not a thought in my head what to do  
Cos I never met a girl like you

Clear in your head when you're setting those sights  
Fear in your bed when the loneliness bites  
Try to get rid we'll be hitting those heights

I'm working on it  
I'm working on it  
I'm working on it  
I'm working on it  
I'm working on it  
Yeah working on it

Someone left the door ajar  
Now I've no idea who you are  
Not a thought in my head what to do  
Cos I never met a girl like you

Clear in your head when you're setting those sights  
Fear in your bed when the loneliness bites  
Try to get rid we'll be hitting those heights

I'm working on it  
I'm working on it  
I'm working on it  
I'm working on it  
I'm working on it  
Yeah working on it  
I'm working on it  
Ah working on it  
Well I'm trying to fit one in the other  
But 7 into 5 don't go  
I'm trying to get along with my brother  
But my brother is so hard to know  
I don't want no soul to suffer  
But it's not an easy line to toe  
So I'm working on it  
Ah working on it

Don't know what you are to me  
Don't know where I want to be  
Don't know what you are to me  
Don't know where I want to be
