

Last Summer

David Gray

Baby, make like we did last summer
Baby, make like we did last year

Dived, plunged into your eyes
Living every hour like a century
There will I always be

Want it, not till it's good and ready
Good and ready to break like a diamond wave
Diamond wave yeah, to take me and drag me under
So far under, that I can't hardly breathe

Dived, plunged into your eyes
Living every hour like a century
There will I always be
